WRJB Radio

FCC EEO Annual Report-April 1, 2022

No new hires were made in this reporting cycle.

During this past year, WRJB has worked to recruit widely throughout our broadcast area despite the COVID-19 pandemic. Being located in a small community, the pandemic limited our local recruitment programs even more than usual. There are no organized job fairs in our area of service. Also, the nearest 4-year college is Bethel University, located approximately 35 miles from our station. We have encouraged applications from institutions of higher learning. We also have a good working relationship with the two high schools in our county. They will refer us to students who may have expressed an interest in broadcasting. We have a long history of utilizing young high school and college students, both male and female, to work as announcers, sales, news, and sports. When we have an immediate opening, we utilize our radio stations, the local newspaper, and the station's Facebook page. Applications are reviewed and followed up with personal interviews.
